TRIMMING

- Better cutting performance for all applications
- Modular Design
- Improved power transmission of the drive to the blade
- Improved ergonomics thanks to perfectly balanced handpiece
- Weight reduction reduces hand fatigue
- The “fat-free variant” reduces the number of foreign bodies
- A puller for 6 different blades reduces costs and errors
- Patented one-hand switch with the latest start-stop system with ergonomically integrated safety lever
- Quality blades made from corrosion-resistant heavy-duty steel for many trimming/protein applications
- Low maintenance costs thanks to low-wear quality components

TRIMMER MOTOR

TM-E6000_evo3

ELECTRIC MOTOR

TM-E6000_evo3

- With up to 6000 rpm, all trimming operations are easier
- "Soft start" and "quick stop" of the rotating blade in conjunction with the rest position of the stainless steel handpiece holder for the highest safety standard
- 2-hand operation, maximum operator control/safety
- extremely robust and waterproof thanks to the completely closed aluminum housing
- The hygienic design allows for easy cleaning and problem-free use in wet/damp environments (e.g. in slaughterhouses, on deep-sea fishing frigates, etc.)
- EU standard technology - stable supply chains reduce the risk of delivery bottlenecks
- Available in 2 versions: 230V or 115V

Offer Price: **R 60.500**

FLEXSHAFT AND CASING, 1,5 M

SCHERMER K SERIES

Captive bolt stunner in different designs and sizes

- High penetrating power even for high slaughter throughput
- Effective trigger safety system
- Automatic cartridge ejector
- Quick-release bayonet lock
- Low wear thanks to robust design

SCHERMER KLS

Captive bolt stunner with automatic bolt retraction system

NEW!

NEW!

The captive bolt stunner of type KLS is designed for stunning slaughter animals with a live weight >1000 kg (e.g. heavy bulls).

- Automatic bolt retraction system
- Bolt discharge: 125 mm
- Trigger safety system
- Maximum power performance due to undamped bolt discharge
- Calibre .27 - 6,8/18 mm
- PTB tested and certified according to CIP and CE

Offer Price: **R 35.900**

SCHERMER KS

Captive bolt stunner with automatic bolt retraction system

Captive bolt stunner with automatic bolt retraction system for cattle, pigs and sheep up to 650 kg live weight

- Automatic bolt retraction system
- Bolt discharge: 80 - 85 mm
- Trigger safety system
- Calibre .27 - 6,8/18 mm
- PTB tested and certified according to CIP and CE

Offer Price: **R 25.550**

STUNNING

STUN-E8XXL / STUN-E6XXL

Electronic stunning devices (constant current & high frequency)

- 8 pre-installed stunning programs, individually adaptable
- Can be extended to up to 24 stunning programs
- LCD display with 40 characters for real time display of program number, current, voltage, frequency and stunning time
- Linear frequency ramp, without abrupt gradations
- Acoustic and visual display for errors and the end of stunning
- 6 convenient buttons for program selection and programming
- Control of a heart electrode possible
- Network-compatible (Ethernet RJ45)
- Remote programming of the parameter data sets possible via a web interface
- Access to stun data via the web interface with daily/weekly/monthly statistics
- Internal data storage for additional backup
- Stun data coupling of two stunners via master/slave control (all data of one stunning procedure in one diagram)

STUN-E8XXL

Electronic, high-frequency, constant-current, cloud-enabled, stunning device for Industry. Also suitable for stunning animals in stun traps.

In addition to the features listed above:

- Second outlet for separate heart-electrode
- Remote control outlet for pneumatic stun tong and pneumatic heart electrode

Offer Price: **R 245.000**

STUN-E6XXL

Electronic, high-frequency, constant-current, cloudenabled stunning device for the large craft application and medium-sized customers

ELECTRIC STUNNING DEVICE STUN-F6

*The images show examples of the screen displays

POWERFUL ELECTRIC STUNNING DEVICE, FOR TRADE AND MEDIUM-SIZED BUSINESSES

- Powerful constant current or constant voltage electric stunning device with variable frequency response for trap stunning in craft and medium-sized businesses
- USB/LAN/WLAN interfaces for data/parameter transfer
- Stunning programs pre-installed; if required expandable up to 25 stunning programs
- Predefined stunning parameters for optimal stunning effectiveness and best possible meat quality, individually adjustable on request
- Remote parameterization of programs and stun device is possible upon customer request
- Complies with the valid legal and normative requirements:
 - ▶ COUNCIL REGULATION (EC) No. 1099/2009 of September 24, 2009 on the protection of animals at the time of killing
 - ▶ REGULATION on the protection of animals in connection with slaughter or killing and on the implementation of Council Regulation (EC) No. 1099/2009 (Animal Welfare-Slaughter Ordinance - TierSchlV)
 - ▶ EU Low Voltage Directive
 - ▶ relevant VDE standards
- High-resolution touchscreen for setting and displaying key parameters during stunning
- Interface for an external three-colour signal light
- Rapid current ramp up to 3.5 A
- Internal storage space for approx. 1.2 million stunning records
- Integrated tally counter (updated daily)
- Reliable, industrial-grade electronic transformer
- Easy installation and operation for the user
- Robust plastic housing with handlebar and wall bracket

TECHNICAL DATA

Weight (kg/lbs)	10,3 / 22,7
Protection class	IP 55
Operation	electric, single-phase

STUN-F8

Stunning device, suitable for industrial use and high frequency
(constant current or voltage)

*Image similar

*The images show examples of the screen displays

- High-frequency constant current or constant voltage electric stunning device for trap or restrainer stunning in industrial and medium-sized companies
- USB/LAN/WLAN interfaces for data/parameter transfer
- Stunning programs pre-installed and can be expanded to up to 25 stunning programs if required
- Predefined stunning parameters for optimal stunning effect and best possible meat quality, individually adjustable on request
- Remote parameterization of the device is possible upon customer request
- High-resolution touchscreen for setting and displaying key parameters during stunning
- Signal provision for external controls (e.g. pneumatic peripherals, PLC, signaling devices)
- Rapid current increase up to 3.5 A
- Internal storage space for approx. 1.2 million stunning sessions
- Integrated piece counter (updated daily)
- Reliable, industrial-grade electronic transformer
- Easy installation and operation for the user
- Robust stainless steel housing with wall bracket complies with the valid legal and normative requirements:
 - ▶ the current COUNCIL REGULATION (EC) No. 1099/2009 of September 24, 2009 on the protection of animals at the time of killing
 - ▶ the Regulation on the protection of animals in connection with slaughter or killing and on the implementation of Council Regulation (EC) No. 1099/2009 (Animal Welfare-Slaughter Ordinance - TierSchlV)
 - ▶ the EU Low Voltage Directive

SLAUGHTERING

NEW!

WBS51-08

Splitting band saw for industrial and medium-sized enterprises for halving pigs. The construction and powerful drive of the saw also allows it to be splitting low to medium quantity of sows and cattle.

- Convenient, reliable belt tensioning system always ensures optimum belt tension and thus supports a long belt service life
- New generation of high-torque drives
- Improved ergonomics of the splitter-band-saw ensures fatigue-reduced working and creates high employee acceptance
- Maintenance-friendly design reduces maintenance times and its resulting costs
- hygienic design for quick and thorough cleaning after daily use
- quick belt change thanks to ONE-HAND lid lock

WBS51-08 WITH F90-2 BALANCER

Offer Price: **R 239.230**

Power	2300 Watt (50Hz)/VA 3 hp (50Hz)/VA

WBS51-08 BLADES

Offer Price: **R 255**

- suitable for low spreader bar slaughtering

- effectively arranged flushing nozzles reduce the bonedust residues on the carcass and, if necessary, save the downstream process step 'cleaning of bonedust'

EQUIPMENT - SPLITTER-BAND-SAW

- 400V supply voltage (via SG WDS-51 switchgear)
- saw blade change with tension limitation (torque limit)
- one-hand operation of the cover
- two-hand safety circuit
- ergonomically designed control lever
- integrated internal disinfection
- configurable equipment
- easy to maintain, few wearing parts
- hourly output: 400 pigs

FNS9

Foot and neck shear

Foot and neck shear for pigs and sheep in high throughput plants

- For severing the head joint and removing the feet of halved pigs and sows by an operator
- user-friendly handling
- Also suitable for cutting the front feet of sows
- Perfect force distribution
- Excellent cut
