

ABATTOIR INNOVATIONS

COMPANY PROFILE

About Us.

Introduction

Abattoir Innovations is a South African company specialising in the supply of high-quality abattoir equipment and solutions. We proudly serve the local meat processing industry with reliable, efficient, and innovative products that meet international standards. As the sole distributor of Freund in South Africa, we bring world-class German engineering and technology directly to our clients.

Our team combines industry knowledge with hands-on experience to help abattoirs of all sizes improve their operations. From knives and tools to processing equipment and safety solutions, we are committed to delivering the right products — backed by trusted service and support.

At Abattoir Innovations, our goal is simple: to be the partner you can count on for everything your abattoir needs.

What We Supply

Slaughter Equipment

Reliable stunning devices, bleeding tools, and hoists focused on safety and humane processing.

Cutting & Processing Tools

Durable knives, saws, and sharpening tools designed for precision and professional use.

Hygiene & Cleaning Equipment

Sterilisers, handwashing stations, and disinfectant systems to keep your operation clean and compliant.

Precision, Durability & Service

Our product philosophy is grounded in three core values: Precision, Durability, and Service. In an industry where equipment failure can compromise safety, hygiene, and productivity, we refuse to cut corners. Every product we supply is selected for its proven performance, robust construction, and ability to meet the demanding standards of modern abattoirs. We prioritise long-lasting solutions that reduce downtime and deliver consistent results. And with our commitment to after-sales support and technical guidance, our clients can rely on us as more than a supplier, we're a trusted partner in their operations.

Benefits of Choosing us

EXCLUSIVE DISTRIBUTOR OF FREUND IN SOUTH AFRICA

Gain access to world-leading German-engineered abattoir equipment trusted in over 60 countries.

INDUSTRY KNOWLEDGE & SUPPORT

Our team understands the unique needs of abattoirs and provides expert advice, sourcing, and after-sales service.

QUALITY-DRIVEN PRODUCT SELECTION

We supply only proven, durable tools and equipment that meet the highest hygiene, safety, and operational standards.

RELIABLE PARTNER, NOT JUST A SUPPLIER

We build long-term relationships with our clients by offering consistent support, fast turnaround times, and trusted solutions.

FREUND

About **Freund**

Freund is a world-leading manufacturer of abattoir equipment and meat processing solutions, known for its German engineering, innovation, and commitment to quality. With over 100 years of experience, Freund develops machines and tools that prioritise efficiency, hygiene, and animal welfare, setting the standard for modern abattoir operations. Trusted in more than 60 countries, Freund offers a comprehensive product range that supports every step of the slaughtering and cutting process. They are the No. 1 in Europe when it comes to slaughter equipment and remain a family-owned business in its 4th generation, carrying forward a legacy of excellence and reliability. As the sole distributor of Freund in South Africa, Abattoir Innovations is proud to make this global quality accessible to the local industry.

Why Choose **Freund**

Choosing Freund means choosing a legacy of precision, reliability, and innovation in meat processing. As Europe's number one manufacturer of slaughter equipment, Freund has earned global trust for products that meet the highest standards of hygiene, safety, and performance. With over a century of experience and leadership passed down through four generations, Freund continues to combine cutting-edge technology with family-driven values. Backed by local support from Abattoir Innovations, South African clients now have direct access to the quality, expertise, and service that define the Freund name.

German Engineering Excellence

Freund products are built with precision, durability, and efficiency in mind, backed by over 100 years of innovation in meat processing technology.

Complete Abattoir Solutions

From slaughter to final cut, Freund offers a full range of equipment designed to work together seamlessly, improving productivity and hygiene at every step.

Focused on Animal Welfare & Efficiency

Freund designs equipment that supports humane slaughter practices while optimising output and maintaining the highest hygiene and safety standards.
